DETAILED ACTION

Election/Restrictions

1. Dependent claim 2, directed to the process of preparing a compound of formula (A) according to claim 1, previously withdrawn from consideration as a result of a restriction requirement, claim 2 is hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because claim 2 previously withdrawn from consideration under 37 CFR 1.142 has been rejoined, **the restriction requirement, as it relates to claim 2 solely, as set forth in the Office action mailed on October 12, 2007 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Yelee Kim on December 17, 2009.

The application has been amended as follows:

In the claims:

Please cancel claims 11 – 23 and 26.

Claim 1, line 33 over to line 34, delete "if possible".

Claim 4, line 34, delete "-Br, Cl or I;".

Claim 6, line 2, delete "Br, Cl, I,".

Allowable Subject Matter

3. Claims 1- 4, 6 – 10, 24, 25 and 27 are allowed.
4. The following is an examiner's statement of reasons for allowance: None of the prior art references provide a teaching or suggested motivation for the process disclosed in the claims of Applicant's claimed invention.

Claims 1 2, 3, 7, 8, 9, 10 and 27: None of the prior art of record anticipates or renders obvious the claimed process. The closest prior art process is disclosed in US 5,861,426 (Del Soldato et al.). The process of '426 differs from Applicant's process of claim 1 in that the salt of R-COONa compound of the '426 is reacted with a compound of the general formula of Br-Y-ONO₂ (nitric esters of halogen alcohols); while Applicant's claimed process teaches reacting the salt of the acid compound of their formula (B), with R as defined by the claim, with a compound of formula (C) where Y is not a halogen but is R_ASO₃- and R_A is C1-C6 alkyl optionally substituted with one or more halogen or a C1-C6 alkylaryl.

Claims 4, 6, 7, 8, 24 and 25: None of the prior art of record anticipates or renders obvious the claimed process. The closest prior art process is disclosed in US 5,861,426 (Del Soldato et al.). The process of '426 differs from the process of claim 4 in that in Applicant's claimed process the salt of the acid compound of formula (B), of the general formula R-COOZ, has a ferulic acid radical as the R group; while in '426 the R of formula R-COONa is defined as groups I, II, III, IV and V, none of which teach or suggest the ferulic acid radical of Applicant's claimed invention. Further, none of the references suggest the use of the compound of Applicants formula (C), with Y as defined by Applicant's claim 4.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
